

# STENOS™ MICRO-OPTICS LIGHTING SYSTEMS

# STENOS BY LUMINII

## MICRO-OPTIC TRACK AND DOWNLIGHT SYSTEMS

STENOS micro-optics are Luminii's smallest, slim line product family. Featuring both track and downlight solutions, these small giants create discreet architectural lighting accents supporting a wide variety of commercial and residential applications.

Engineered with an all-new and proprietary micro-optics engine, STENOS light sources push more light forward in a compact package delivering superior uniform light output, color consistency, and high cri. Featuring a wide array of STENOS easy snap™ optical accessories, and track joiners, STENOS provides infinite opportunities to customize spaces effortlessly.

## MINIATURIZATION

STENOS Track and Downlight models are smaller than ever. Elevate spaces with their streamlined micro linear profiles, a proprietary micro-lens, and high-end architectural details.

## FIELD CONFIGURABLE

STENOS Track is field cuttable and features a variety of joiner styles that are easy to install. Effortlessly switch modules between circuits with the track's 2 circuit design to reposition and re-aim modules at any time.

STENOS Downlights feature a Constant Voltage design, enabling multiple fixtures to operate from a single power supply.

## SUPERIOR OPTIC DESIGN

STENOS Optics can push even more light forward than competing products. The result is unvarying light output, beautiful color uniformity, high CRI, and high R9.

## TOTAL CONTROL

Customize both STENOS Track and Downlight models with STENOS Easy Snap beam shaping accessories and louver.

# STENOS DOWNLIGHT

STENOS 12" Downlight

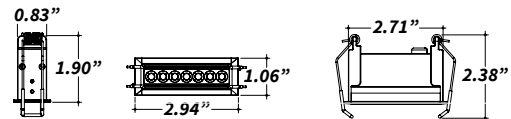

STENOS 5" Downlight

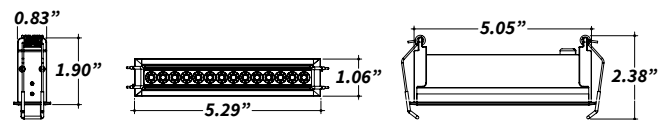

STENOS 3" Downlight

## DIMENSIONS

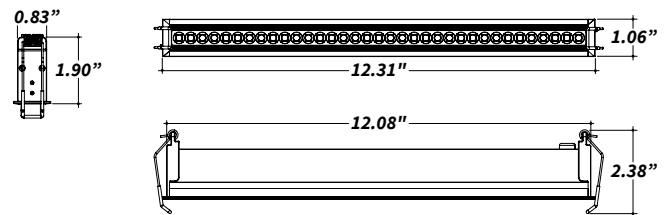

STENOS 3" Downlight

STENOS 5" Downlight

STENOS 12" Downlight

## FEATURES

- Flawless beam quality from a unique micro-linear form factor
- Narrow 15° TIR native beam is aimable up to +/-30°
- Over 1200 Lumens per foot
- Single bin sorted LED provides industry-best color quality
- Beam shape is customizable with optional beam shaping and widening easy-snap lenses and louver
- Profile sizes are available in 3", 5", 12" lengths

\*Actual sizes are: 2.71", 5.05", 12.08" and slightly wider with spring clips

- CCTs: 2700K, 3000K, 3500K, 4000K
- T24 & Title 24/JA8 Compliant
- UL wet location rated — covered ceiling mount only
- IC rated (DLs are so efficient, they generate very little heat)
- Life: 72,000 hours
- Finishes: Black and White painted

# STENOS TRACK SYSTEM

Trimless Recessed Track

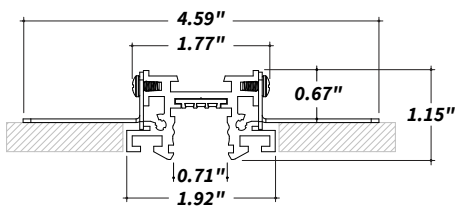

Trimmed Recessed Track

Surface Track

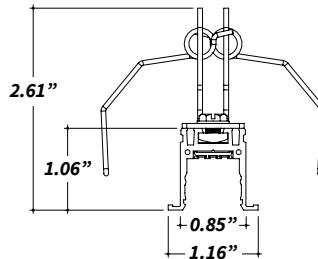

Suspended Track

## DIMENSIONS

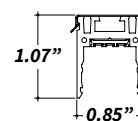

*Trimless Recessed Track*

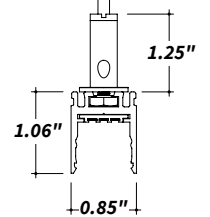

*Trimmed Recessed Track*

*Surface Track*

*Suspended Track*

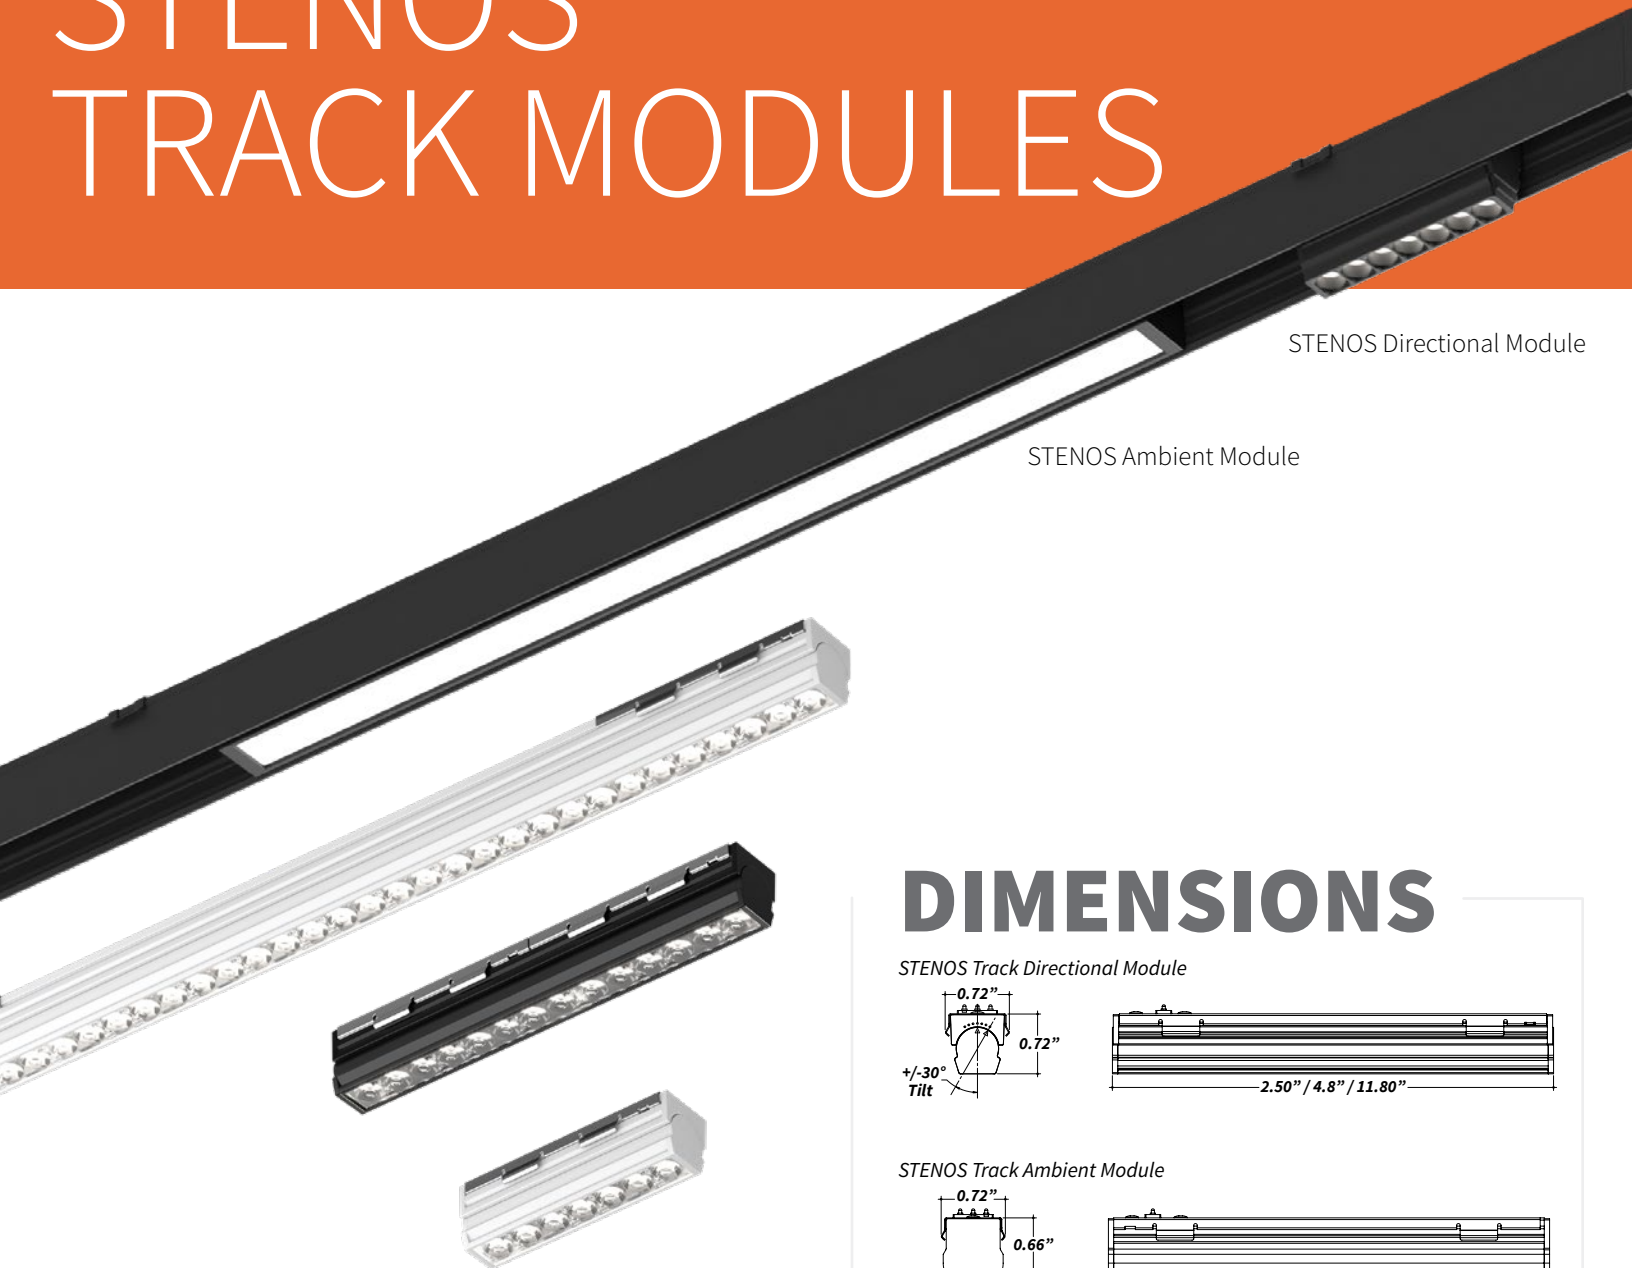

## FEATURES

- Low profile, field-configurable track systems all support STENOS directional and ambient modules
- Minimalist and narrow track seamlessly integrates into all environments
- Snap-in Electrical Joiners include magnetic black/white Cover Plates to maintain clean aesthetic
- L, T, X, and Straight joiners and End connectors
- Two-circuit track enables simple setup of two, separately controllable zones — simply remove, rotate, and re-insert a STENOS module to change the circuit
- Class 2 power track simplifies installation
- T24 & Title 24/JA8
- Finishes: Black and White painted

# STENOS TRACK MODULES

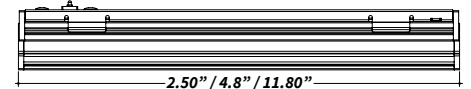

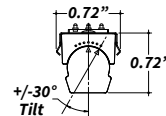

STENOS Directional Module

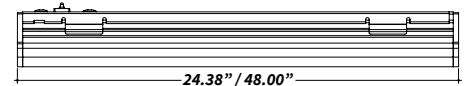

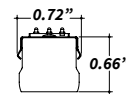

STENOS Ambient Module

## DIMENSIONS

STENOS Track Directional Module

STENOS Track Ambient Module

## FEATURES

- Directional and ambient modules are compatible with all track systems
- Modules can be added, removed, and re-positioned in track easily with simple tools
- Two-circuit track enables simple setup of two, separately controllable zones — simply remove, rotate, and re-insert a STENOS module to change the circuit
- Up to 1200+ Lumens per foot
- Beam shape is customizable with optional beam shaping and widening easy-snap lenses and louver
- Class 2 power track simplifies installation
- CCTs: 2700K, 3000K, 3500K, 4000K
- T24 & Title 24/JA8
- Finishes: Black and White painted
