TECHNICAL DESCRIPTION

Stacko Multi-Aim 3 Mid is a Constant Current miniature display lighting product. It has four beam distributions and is a part of the modular Stacko Collection allowing users to 'stack' products together to create unique lighting set-ups that comes as standard in white, black and brushed aluminium. There are 3 light engines totalling 306lm | 3.36W. Each narrow beam in our 102lm light engine has a peak intensity of 794cd. This 'Mid' module requires further modules or an end cap to close the circuit. There can only be a maximum of 10 light engines per Stacko circuit or driver. The luminaire is compatible with our Minipoint system that enables a plug and play setup where luminaires can be swapped to suit changing lighting requirements.
