

The K45V Channel is a linear aluminum extrusion that has been designed to fit many LED lighting needs and specifically corner applications. Multiple configuration options allow for great flexibility in any installation. Substantial aluminum mass in profile provides excellent heat sink for high power LEDs. K45V Channel is available with frosted lens. Extrusion and lenses are field cuttable. Mounting bracket and end-caps can be ordered separately (page 2).

### Finish

- Silver anodized
- White

### Mounting

Mounting bracket

### Diffuser lens

- Polycarbonate
- Snap-in-place,
- UV resistant
