Please read all instructions prior to installation and keep for future reference!

1. Product to be installed by a qualified electrician.
2. Must be installed per NFPA 70, article 410.16.
3. Prior to installation ensure power is off at fuse box to prevent electrical shock.
4. More than one person is recommended for this installation.
5. Damp locations only.
6. Use only with Class 2 power unit.
7. Suitable for installation within the closet storage space.
8. Max 50 pounds per 1 foot with mounting supports.

1 mounting end cap, fixture, support bracket, every 48", extrusion

1.3 mounting end cap, extrusion

1.1 support bracket, extrusion

1.1 Slide the support brackets into the Runda Closet Rod extrusion. Support brackets must be installed every 48" for proper weight support distribution.

1.2 Carefully remove the protective film from the diffuser.

1.3 Push the mounting end cap onto each Runda Closet Rod extrusion end.

2 lead wires, LED, mounting end cap, drywall, wood block, support bracket, screw

2.1 Run the lead wires (or DC quick connect cable) through opening in mounting surface to the remote power supply.

2.2 *Mounting surface must be flat and structurally sound.* Secure each support bracket into the mounting surface with the appropriate hardware every 48". *Diffuser lens must be in the down position.*

2.3 Remove the covers on each mounting endcap, orientate two of the three mounting holes in the up position. Followed by securing each endcap into the surface. Using the appropriate hardware.

3a Class II power supply, 120 VAC, 24 VDC, power to 24 VDC Runda Closet Rod light fixture

Lead wire power feed

3a Ensure power is off to power supply! Then proceed to connect Runda Closet Rod LED lead wires to power supply. For wiring instructions please refer to power supply wiring instructions. See page 2 - step 4 - for quick connect power feeding.

See page 2 - step 3b - for quick connect power feeding
