

# STENOS™ Micro Linear Track and Downlight System

A modern office interior featuring white desks, black ergonomic chairs, and multiple computer monitors. A large window in the background shows a lush green forest. The ceiling is white with recessed linear lighting fixtures.

# More Than Meets the Eye

**Say hello to STENOS**, Luminii's smallest, slimline linear product family. Featuring both a downlight and track solution, these small giants discreet architectural lighting accents supporting a wide variety of applications, including high-end residential, museum, hospitality, commercial office, and retail environments. Engineered with industry-leading optical design, STENOS profiles push more light forward to deliver superior uniform light output, color uniformity, and high CRI.

## MINIATURIZATION

STENOS Track and Downlight models are smaller than ever. Elevate spaces with their streamlined micro linear profiles, a proprietary micro-lens, and high-end architectural details.

## FIELD CONFIGURABILITY

STENOS Track is field cuttable and features a variety of joiner styles that are easy to install. Effortlessly switch modules between circuits with the track's 2 circuit design to reposition and re-aim modules at any time.

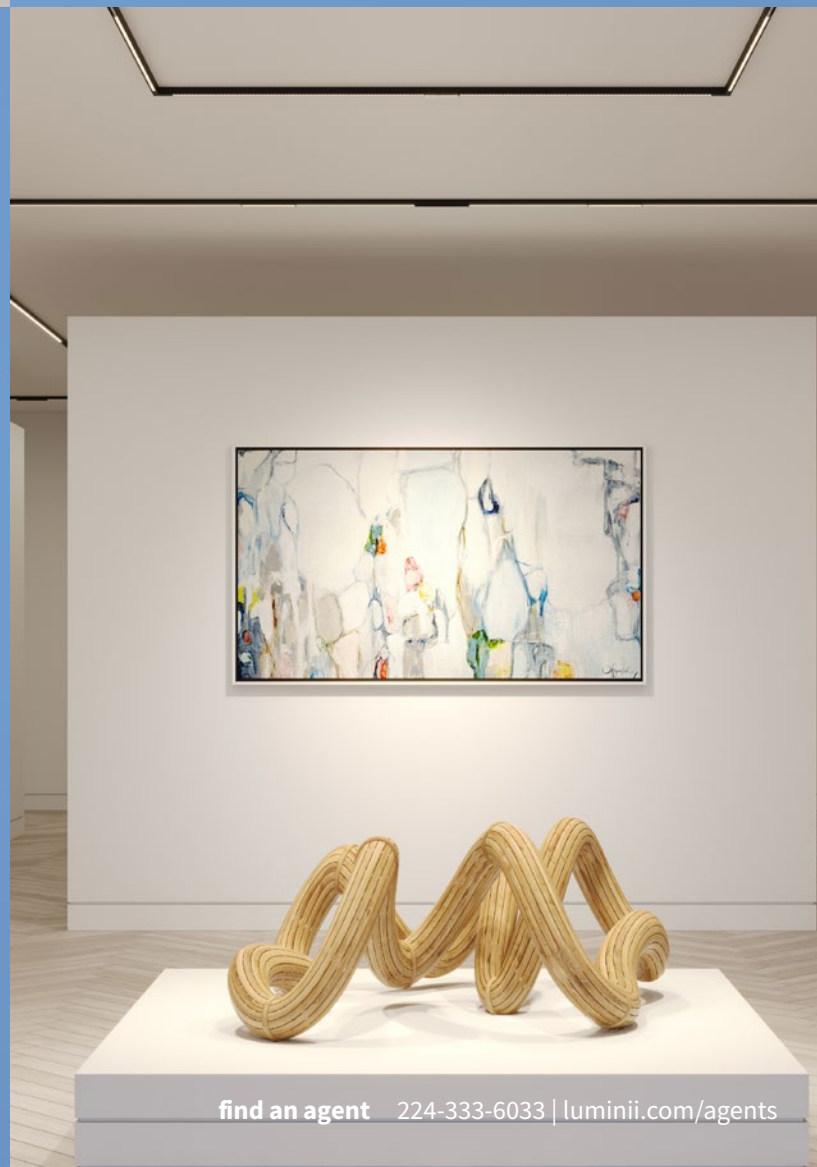

STENOS Downlights feature a Constant Voltage design, enabling multiple fixtures to operate from a single power supply.

## SUPERIOR OPTIC DESIGN

STENOS Optics can push even more light forward than competing products. The result is unvarying light output, beautiful color uniformity, high CRI, and high R9.

## TOTAL CONTROL

Customize both STENOS Track and Downlight models with STENOS Easy Snap beam shaping accessories and louver.

# STENOS Track System

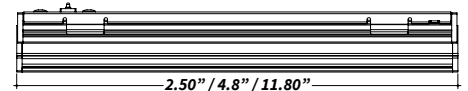

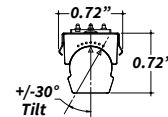

STENOS Track System

STENOS Track Ambient Module

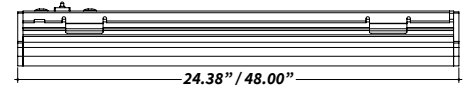

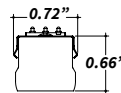

STENOS Track Directional Module

## dimensions

STENOS Track Directional Module

STENOS Track Ambient Module

## features

- Low profile, field-configurable track system supports STENOS directional and ambient modules
- Enduring flexibility — modules can be added, removed, and re-positioned in track easily with simple tools
- Two-circuit track enables simple setup of two, separately controllable zones — simply remove, rotate, and re-insert a STENOS module to change the circuit circuit
- Beam shape is customizable with optional beam shaping and widening easy-snap lenses and louver
- Up to 1200+ Lumens per foot
- Class 2 power track simplifies installation
- Surface Mount and Recessed track options available
- CCTs: 2700K, 3000K, 3500K, 4000K
- T24 & Title 24/JA8
- Finishes: Black and White painted

# STENOS Downlight

STENOS 12" Downlight

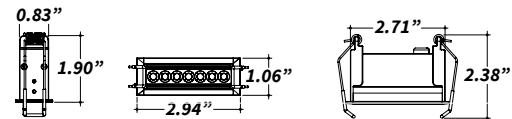

STENOS 5" Downlight

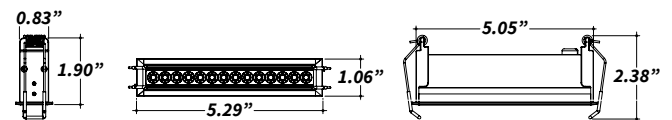

STENOS 3" Downlight

## dimensions

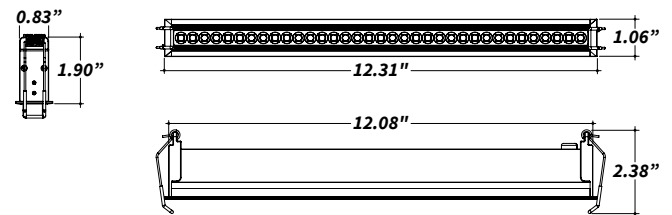

*STENOS 3" Downlight*

*STENOS 5" Downlight*

*STENOS 12" Downlight*

## features

- Flawless beam quality from a unique micro-linear form factor
- Narrow 15° TIR native beam is aimable up to +/-30°
- Over 1200 Lumens per foot
- Single bin sorted LED provides industry-best color quality
- Beam shape is customizable with optional beam shaping and widening easy-snap lenses and louver
- Available in three sizes (3,5,12 in.) and outputs
- CCTs: 2700K, 3000K, 3500K, 4000K
- T24 & Title 24/JA8 Compliant
- UL wet location rated — covered ceiling mount only
- IC rated (DLs are so efficient, they generate very little heat)
- Life: 72,000 hours
- Finishes: Black and White painted

\*Actual sizes are: 2.71", 5.05", 12.08" and slightly wider with spring clips
